Panoramic Resources Limited (ASX: PAN) (“**Panoramic**” or the “**Company**”) is pleased to advise of the successful completion of the fourth shipment of nickel-copper-cobalt concentrate since the restart of operations at the Company’s Savannah Nickel Project.

Fourth Shipment

The COE Luisa arrived at Wyndham Port on the afternoon of 1 June 2022. Stevedoring contractor CGL was responsible for loading the ship, which took five days. The ship was loaded to cargo capacity with a total of 10,489t nickel-copper-cobalt concentrate and departed to the Port of Lianyungang in China for delivery to offtake partner Jinchuan. Following the fourth shipment, port concentrate stocks have been fully depleted with 726t of stocks remaining at the mine site.

As per the offtake agreement with Jinchuan, a provisional invoice has been submitted with payment expected next week. The payment of US\$18.1M (~A\$25.1M) is inclusive of all three metals contained in the concentrate. The MV Heemskerckgracht has been booked and is expected to arrive in Wyndham in early July.

Commenting on the successful fourth shipment, Managing Director and CEO, Victor Rajasooriar said:

“Our concentrate production is tracking to plan as operations continue to ramp up at Savannah. As an unhedged producer we participate fully in commodity price moves and the pricing received on the fourth shipment is one of the best we’ve had since production resumed. With shipments now consistently occurring, updates will be provided on a quarterly basis going forward with FY23 production guidance to be reported in July.”
